

# Grout Care Guide

Procedures for Sealing & Re-Colouring Grout

## Sealing Grout

To provide stain resistance to grout against grease, oil, food, grime etc and make ongoing maintenance easier

New Grout

Allow grout to fully cure as per manufacturers specification

Old Grout

Clean grout joint with **XtremeClean™** & allow to completely dry

Step 1

Apply sealer to a clean dry sponge or cloth. Squeeze off any excess sealer.

Step 2

Work the damp sponge or cloth with the sealer into grout joint

Step 3

After 5-10 minutes wipe off excess sealer from tiles with clean dry cloths or paper towels

## Re-Colouring Grout

To re-colour plus provide stain resistance against grease, oil, food, grime etc and make ongoing maintenance easier

Step 1

Prepare grout with diluted **XtremeClean™** or **OxiTreat HD™**

Step 2

Apply **Renue'N'Seal™** directly to clean, dry grout joint

Step 3

Work **Renue'N'Seal™** into grout joint with Colorant Applicator

Step 4 A

Wipe off excess product with a slightly damp chamois or sponge

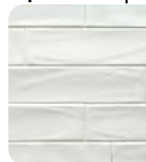

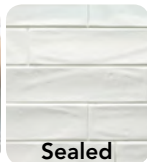

Step 4 B

Allow product to dry then mist some water, allow to dwell then scrub off with white nylon pad.

## Sealing - Quick Guide Only. Read product label first

Option A: Aqua-Seal Gold+™ or Enhance'N'Seal™

Option B: Spray'N'Seal™

**Step 1** - Apply sealer to sponge then scrub onto grout

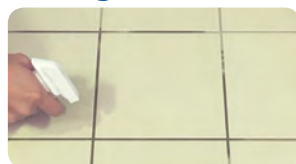

**Step 2** - After 5-10 minutes, wipe surface completely dry.

**Spray'N'Seal** - Spray onto grout. No wiping required.

## Re-Colouring & Sealing - Quick Guide Only. Read product label first

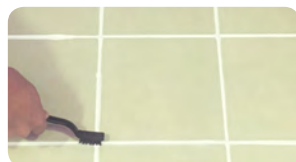

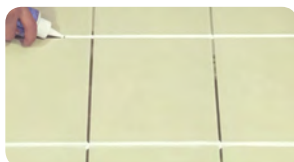

Unsealed grout is not protected and will stain.

**Step 1** - Prepare grout with **XtremeClean™** or **OxiTreat™**

**Step 2** - Apply **Renue'N'Seal™** directly to clean, dry grout.

**Note:** **Renue'N'Seal™** should be applied in thin, even coats

**Step 3** - Work **Renue'N'Seal™** into grout with applicator.

**Step 4** - Wipe off excess with damp cloth or chamois.

BEFORE - Stained & discoloured

AFTER - Re-coloured & sealed
