

Natural Stone Tables

The timeless beauty of natural stone has made this material a favourite choice for outdoor tables. These tables are made from a variety of natural stones, however as natural stone is porous, it will require sealing and proper care & maintenance to help preserve its look. To help maintain the beautiful finish of our tables, coasters should be used to help prevent stains, scratches & etch marks. All spills should be wiped up immediately to help avoid staining or etching of the stone surface. Abrasive or acid based products should NOT be used.

Sealing

Purpose: To help protect porous surface from staining and ease ongoing maintenance.

Desired Look	Stain Resistance	Product Options	# Coats	Coverage Per 250ml Per Coat	Important Notes
Natural Look	Best	Aqua-Seal Gold™	2	3 - 6 m ²	Best recommendation for maximum stain resistance and food areas.
Natural Look	Best	Spray'N'Seal™	2	3 - 6 m ²	Quick spray application. For maximum stain resistance and food areas.
Enhanced Look	Best	Enhance'N'Seal™	2	3 - 6 m ²	To seal plus darken & enhance the colour of unsealed natural stone. For maximum stain resistance & food areas. Enhancement cannot be reversed.

Note: Sealers are not waterproofing agents and do not protect against etching by acid based contaminants or harsh chemicals.

Maintenance

Purpose: To safely maintain a clean surface and to preserve it's beauty and integrity

Type of Maintenance	Product Options	Important Notes
Routine Cleaning	Clean'N'Gleam™	One step spray, clean & maintain shine. Safe for regular use.
Routine Cleaning & to help prolong existing sealer	AquaGuard™	One step clean and re-seal. Boosts existing sealer performance & longevity.
Sanitise & Deodorise	ReFresh™	Spray and wipe cleaner, deodoriser & sanitiser.

Note: Do not use abrasive or acid based products

Stain Removal

When **Poultice Plus™** does not effectively remove a stain, the following recommended Aqua Seal STS™ products used in conjunction with **Poultice Powder™** have been shown to produce successful results.

Stain	Recommended Product	Alternative Product	Notes
Coffee, Tea	Poultice Plus™ or Strip-It™	XtremeClean™	After removing stain, remove any etch marks with Hone 400™ or Re-Shine™ depending on finish of the table
Cooking Oil, Grease	Poultice Plus™ or XtremeClean™	Strip-It™	After removing stain, remove any etch marks with Hone 400™ or Re-Shine™ depending on finish of the table
Wine or Soft Drink	Poultice Plus™ or Strip-It™	XtremeClean™	After removing stain, remove any etch marks with Hone 400™ or Re-Shine™ depending on finish of the table

Note: For a comprehensive list of stains & recommended stain removal products, visit www.aqua-seal.com.au/stain_removal.php

Surface Etching

Acid based products such as wine, vinegar, citrus fruits can etch the surface of calcium based stones eg marble, limestone, travertine etc. Depending on the finish (polished or honed), our Stone Restoration products will help restore your table top.

Surface Look	Recommended Product	Notes
Polished	Re-Shine™	Re-seal table top after using Re-Shine™ to repolish
Honed	Hone 400™	Re-seal table top after using Hone 400™ to hone

These recommendations are intended as general guidelines for sealing and maintenance. Read product directions thoroughly prior to use. Always test first.
